WORRIED ABOUT DOCUMENTATION TIME?

Learn how to reduce EHR clicks and data entry time. Enable patients to begin their own medical history from home or the waiting room and restore your productivity.

STEP 1

Patients answer questions about their visit:

- ✔ History of Present Illness
- ✔ Review of Systems
- ✔ Past Medical, Family, and Social History

What is the reason for your visit today?

- ⚪ Abdominal pain
- ⚪ Headache
- ✔ Sore throat

STEP 2

Branching technology guides the patient

Do you have a cough?

- ✔ Yes
- ⚪ Sometimes
- ⚪ No

Is it a dry cough?

- ✔ Yes
- ⚪ Sometimes
- ⚪ No

STEP 3

Data is structured into a visit note and ClinicalTemplates

Cough/URI - HPI

Quality of Cough:

- ☐ None
- ☐ Barking
- ✔ Dry
- ☐ Hacking
- ☐ Moist
- ☐ Productive
- ☐ Non-productive
- ☐ Persistent

STEP 4

Productivity and happiness increase
